AutoCAD Crack R17 contains AutoCAD ArchiCAD (for building and architectural design) and new version AutoCAD LISP (for application extension) in package. It also has a workflow system called AutoCAD Process Workbench with support for a variety of extended capabilities. It also supports workgroups for better scalability and interconnection. It provides a number of new features such as improved "Assign Dimensions" function, improved standard drawing tools, a new "Model Browser" and a new "Design Web Connectivity" with an Internet browser-based version of the CAD application. AutoCAD R18 is an update to AutoCAD R17. I'm attempting to make a counter that keeps track of the number of times the user clicks on a like button. I know I'm missing some code that is correct, but I can't figure out what it is. The problem is that the chosen.jQuery.ajaxSuccess function gets fired every time the page loads. Here is the code: var count = 0; chosen.jQuery.ajaxSetup({ beforeSend: function(xhr, settings) { xhr.setRequestHeader("Access-Control-Allow-Origin", "*"); xhr.setRequestHeader a1d647c40b
